

## Go/No-Go tester for Banshee Excel Lite

This unit will apply power to the Banshee Excel Lite model only and not to be used on the Banshee Sounder. This unit is designed to apply power to check both sounder and LED strobe are functioning correctly.

The unit is powered by a 9V DC PSU and has a 100mA glass fuse fitted. It also has a power LED to indicate the unit has power.

Directions for use:

Plug in 9V DC PSU and check LED on front is illuminated (if LED is not illuminated, check fuse)

Find the small fixing hole on the side of the Banshee (see Fig 1.)

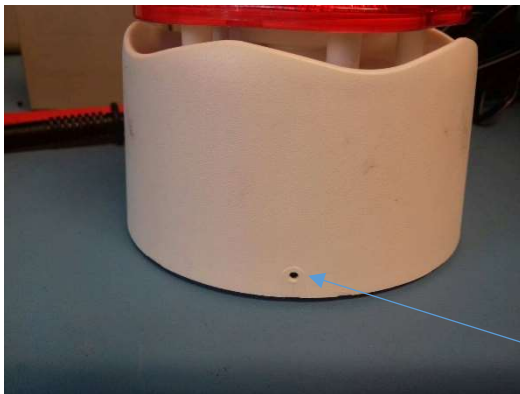

Fig 1. Fixing hole

Lower the UUT so the hole lines up with the arrow on the tester (see Fig 2.)

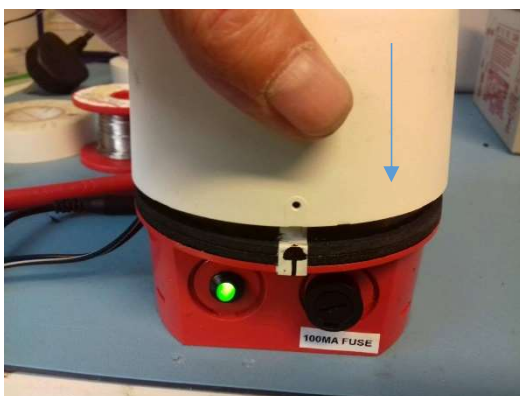

Fig 2.

This powers up both sounder and strobe sections of the unit, check sound is of good quality and strobe flashes.
