### Solista LX Wall VAD - Overview & technical specifications

The Solista LX Wall visual alarm device (VAD) is suitable for a variety of applications, available in a red or white body and compatible with the full range of 6 bases. A patented lens design distributes light to achieve the required illumination specified by EN 54-23, whilst using minimum current consumption.

The 2nd generation of the LX now incorporates soft-start technology. This patented feature constantly monitors the available voltage to give zero start up surge on the line, allowing maximum product line loading. It can also detect line overloading and will indicate the fault with a rapid double flash – an innovative feature termed double flash overload protection (DFOP).

#### Features and benefits

- Ultra low current consumption of 10mA, perfect for use where curent consumption is a key consideration
- Up to 7.5m coverage volume, ideal for bedrooms, bathrooms and toilets
- 0.5Hz or 1Hz flash rate; switch flash rate to 0.5Hz to reduce current consumption
- Coverage switch to 2.5m, reducing power consumption by up to 50%
- · Patented soft start technology gives zero start up surge, allowing maximum line loading
- Double flash overload protection (DFOP), helping installers to recognise when they have overloaded a line

#### **Technical specification**

Model:	Solista LX Wall				
Mounting Type	Wall				
Voltage	9-60VDC				
Current	10 - 25mA dependent on setting				
Coverage (y)	7.5m (Switchable to 2.5m)*				
Mounting Height (x)	2.4m (max)				
Coverage Volume Code	W-2.4-7.5				
Coverage Volume	135m³ (15m³)				
Flash Rate	1Hz (Switchable to 0.5Hz)				
Operating Temperature	-25°C to +70°C				
Monitoring	Reverse Polarity				
Protection	IP33C Shallow Base	IP65 Deep and U Base			
Weight	100g				
Body Colour	White or Red				
Flash Colour	White or Red				
Maximum effective luminous intensity (leff)	53cd (candela)
